Draft

Design Daniel Lavonius Jarefeldt &
Josef Zetterman (Tengbom arkitekter)

Dagens arbete blir mer och mer flexibelt. Behovet av en egen arbetsplats och fasta mötesrum är inte längre en självklarhet.

Draft är en mobil, dubbelsidig skrivtavla med en grafisk och enkel form.

Work nowadays is becoming increasingly flexible. Fixed workplaces and meeting rooms are no longer obvious requirements.

Draft is a mobile, double-sided writing board with a simple graphic form.

Dubbelsidig, antingen med vit E3-skrivyta på båda sidorna, eller E3 på ena sidan och en vacker anslagstavla i kork på den andra.

Double-sided, either with white writingboard E3 on both sides, or E3 on one side and a beautiful corkboard on the other side.

Under skrivytorna finns en trälåda, för förvaring av t ex pennor och sudd. Trälådan i ek adderar värme till produktens uttryck.

Below the writing surfaces is a wooden drawer for storing pens and erasers, for example. The wooden drawer is made from oak and adds a warm feeling to the expression.

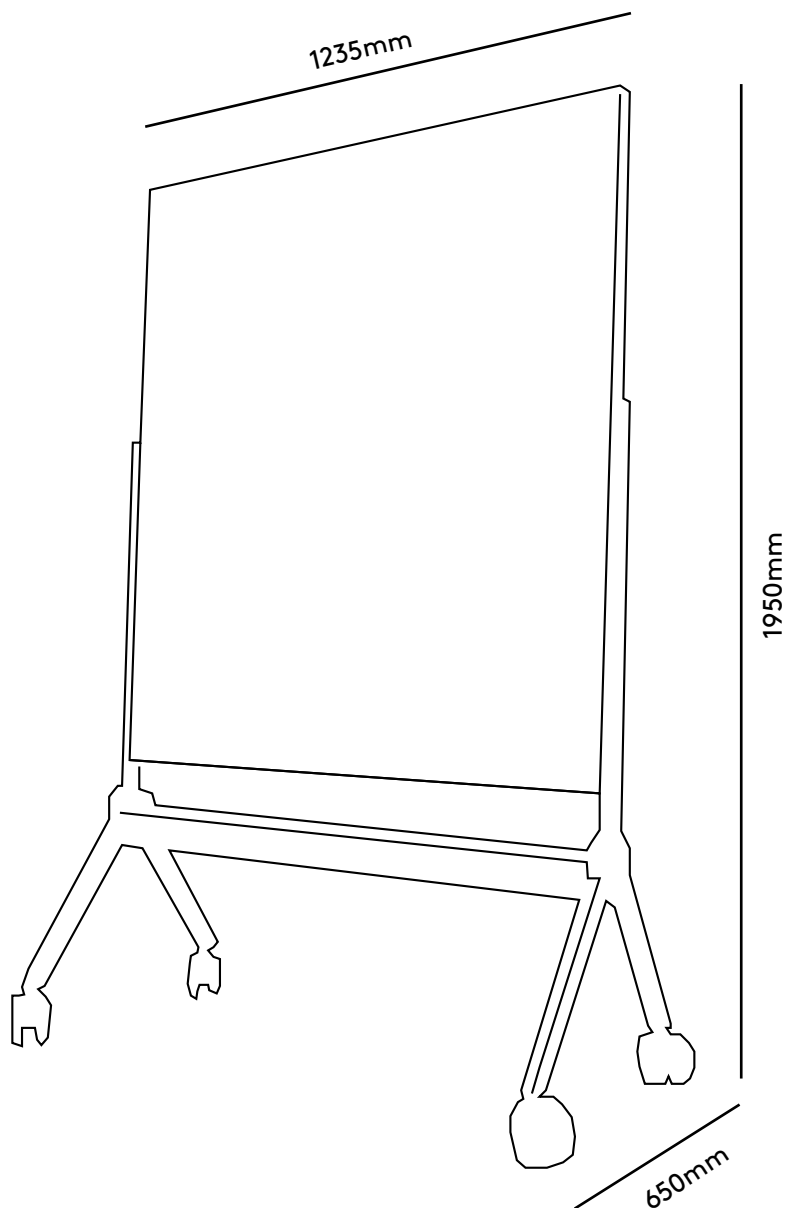

Tavlan har ett antracitgrått stålstativ med låsbara hjul.

The board has an anthracite grey steel frame with lockable castors.

Every whiteboard in the Abstracta range has an E3 surface; an environment-friendly, glass enamelled, sheet of steel. The writing surface is magnetic. E3 is recommended for short throw projectors only.

A special "White board kit" is available as an accessory. This has been developed to fit the E3 surface and includes: eraser, markers, penholder, bottle of cleaning fluid and magnets.

MagVision E3

MagVision E3

The MagVision E3 whiteboard is a great product for workplaces that require large surfaces to write and draw on. The minimalistic whiteboard without a frame suits perfectly to join as a group of whiteboards to cover a large area.

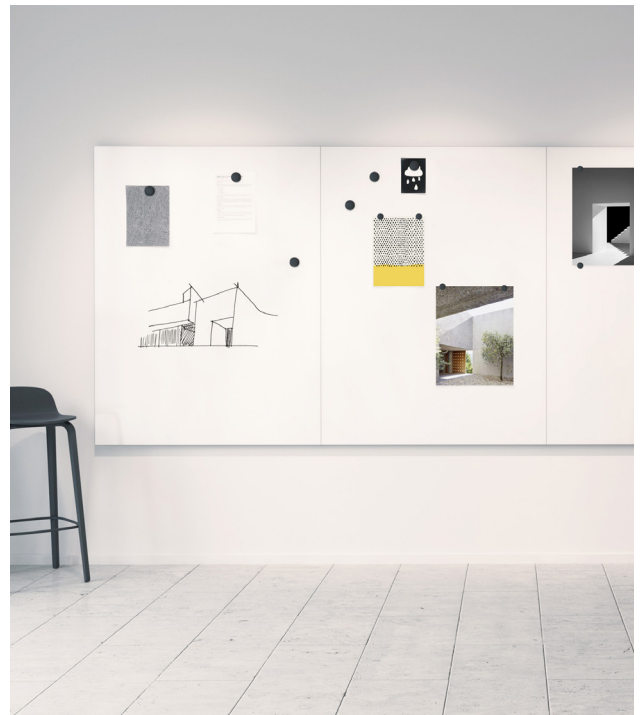

Information

MagVision E3 has a discrete, thin frame of aluminium, and is equipped with E3 enamel whiteboard surface. The slimline frame (1,2 mm) allows for modular groupings.

MagVision E3 is suspended with two profiles (brackets) at a distance of 7 mm off the wall and 2000 - 2100 mm from floor to upper edge.

Standard board format is horizontal. The boards can also be mounted vertical per customer request.

An aluminium pen shelf is available as accessory.

Mixx

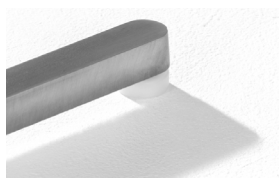

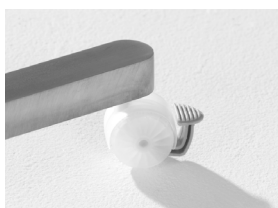

Mixx

Design Ruud Ekstrand

Mixx är ett koncept av AV-produkter som skapats för den moderna konferensrummet med den designmedvetna kunden i åtanke.

Mixx is a range of AV-products created for the modern conference room with the design conscious client in mind.

Den gjutna aluminiumfoten levereras med 40 mm transparenta hjul samt ställfötter.

The molded matt blasted aluminium cross is delivered both with lockable, transparent wheels (40mm) and adjustable feet.

Skivorna är tillverkade av 5 mm aluminiumplåt, lackerat i vitt, RAL 9003. Mittstolpen består av två teleskooperande, naturanodiserade aluminiumprofiler.

The 5 mm thick top aluminium plate is coated with white lacquer, RAL 9003. The tripod consists of a silver anodized aluminium profile with telescope function.

Justerbar höjd på stativet.

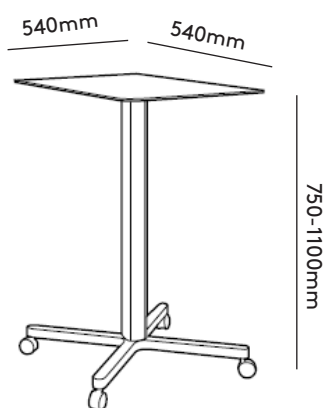

Adjustable height of the tripod.

Moow

Design Stefan Borselius

Moow

Design Stefan Borselius

The Moow system consists of wall-mounted whiteboards and wheel-mounted whiteboards in several different sizes, wall rail and flip chart hooks. The wheel-mounted whiteboards can be leaned against the wall or turned around to be hung on the wall rail.

Materials and sustainability

Framed by a round slightly raised black thin line, Moow leaves an exclusive and neat impression. Designed as a series of flexibility, the whiteboards to this rail system comes with a fixture or on embedded wheels, allowing the board to be either freestanding or mounted to the wall.

"Moow is a smart and easy way to meet the need of contemporary workspaces", says Stefan Borselius.

Sketchalot

Design: Eelco Voogd

Sketchalot

Sketchalot is the world's first and only modular whiteboard panel that requires no permanent attachment to walls or glass surfaces.

Materials and sustainability:

Abstracta whiteboards consists of E3 surface - an environmental-friendly, glass enamelled, sheet of steel.

The writing surface is magnetic, this increases the use for the product. Detouchable feet is made from white lacquered aluminium.

There is no emission to air, water or soil during its production.

The Sketchalot filling contains recycled materials.

Measurements WxHxD (mm)

790x2000x210
